General Information for Rental Package Display

Package display components and the size

- Basic wall panels are made of laminated plywood in white color and are aluminum framed.
- Wall panels and other stand material must be returned after the exhibition without any damage caused by:nailing, drilling, wallpapering, inappropriate self-adhesive tape etc. So please ensure that you have enough chain, hooks etc. to hang poster and other displays.
- In case of need for these materials, be sure to contact KOGEISHA in advance. The cost of repair or replacement of damaged equipment will be charged to exhibitors.
- In case of a corner booth, there will be no walls constructed on the aisle side; but the prices will be the same.
- The images on this pamphlet are assumed to have an adjacent booth next to each other.

Construction Schedule

Your booth is scheduled to be completed in the morning of the day before the exhibition starts. Due to the construction condition, there might be a delay.

Usage of wall panels for Exhibition

The wall panels may tilt when an object is hung. In such case please notify us for assistance.

Structures of wall Panels

Basic plan is constructed by Octanorm System Panels. For more details for the system panel, please refer to page 3.

Company Sign Position

The company name on the fascia board can be placed at the height you wish. If there are no directions for the placement of the company name, it will be placed at 2m high, side centered.

Construction Schedule

Your booth is scheduled to be completed in the morning of the day before the exhibition starts. Due to the construction condition there might be a delay.

Usage of wall panels for Exhibition

The wall panels may tilt when an object is hung. In such case please notify us for assistance.

Structure of wall panels

Wood Plan is constructed by wooden lease panels (re-used panels). The wall papers are new, but there might be some bumps showing up. If you wish to hang an object onto the wooden wall, you may able to place a tag or a nail onto them.

Company Sign Position

The company name on the fascia board can be placed at the height you wish. If there are no directions for the placement of the company name, it will be placed at 2m high, side centered.

Main electrical line connection and Rental fee

If you apply for the optional furniture that requires electrical needs, it is necessary for you to apply the main electrical power work. The main electrical power work and wiring are JPY 11,970/per 100V 1kW (5% tax included) during the exhibition. (For Basic plan, Main electrical power work (1kW) is included.)

Electricity Supply

For exhibitor who ordered our original shell scheme booth, we will provide each with up to 1.5kW of single-phase 100V for free of charge. However when the required power capacity exceeds 1.5kW, JPY 8,400-/per kW, (5% tax included) charges will apply for extra power supply.
